

14) When my child goes to registration day, do I need to go as well?

No, most students attend registration on their own.

15) How do I get summer school classes onto my students' transcripts?

San Jose Unified summer school transcripts will automatically be sent to the school registrar, who will update the student's transcript. Summer school transcripts from other schools or Junior Colleges will need to be ordered by the student and turned in to the registrar as soon as possible.
